

Paiute Indian Tribes of Utah - Kanosh Clinic

No Picture Provided

Executive Summary

Summarizes the Site, Parking, Facility Size, Staff and Contract Health Dollars necessary for the Service Delivery Plan in 2015. Identifies the Direct Care Services Offered to include highlighting any new services. Identifies the communities and population served for each service. The second page of the Executive Summary documents the priority resource issues as identified through the Master Planning process.

Historical Utilization by Location of Encounter

Documents 3 years of RPMS and contract care workloads provided at the facility predominantly serving the Primary Care Service Area by product line and specialty.

Historical Utilization by Community of Residence

Documents 3 years of RPMS and contract care workloads provided to the user population of the Service Delivery Area by product line and specialty.

Market Assessment

Compares the Historical Workload to the Health System Planning software and to national averages of patient care utilization, projecting future workloads based upon the worst case of these three planning scenarios. Also documents the percentage of care that will require contracting due to acuity and the quantity of care that can potentially be served by the direct care system.

Service Delivery Plan

Recommended service delivery plan by product line based upon projected workload, key characteristics, patient classification and tribal and IHS input.

Resource Allocation

Quantifies the necessary space and key characteristics for the Service Delivery Plan and compares them against existing resources. Also tabulates necessary contract health dollars based on the delivery plan.

Executive Summary

Service Area Description

The Kanosh Clinic, serving the Primary Care Service Area Communities listed to the left, is located in the town of Kanosh, approximately 160 miles Southwest of Salt Lake City.

It is a hub of primary care for Native Americans in the Millard County area. It sends most of its referral workload to a small medical clinic in Fillmore and then Provo for higher acuity Secondary and Tertiary Care.

As noted in the Service Summary to the left, the Koosharem Clinic operates 16 hours per week as a small health station with primary care and behavioral health. New services anticipated for 2015 include traditional healing, dental, public health nursing, and transportation. There is no extended service area planned, although partnership opportunities for visiting specialties exist to be explored with cardiology and rheumatology.

Facility Description

The Koosharem Clinic totals 159 square meters, comprised of one permanent structure, built in 2007.

Services & Resourcing Priorities

1	Add PC Staff	The Paiute Indian Tribes of Utah have the following concerns regarding their relationship with the Phoenix Area: 1.) Little overall funding; 2.) Not enough CHS \$ - what they use is not actually CHS \$ at all; 3.) Step child/not part of a service unit; 4.) Responsible for building own clinics; 5.) Crossover, Navajo esp.; 6.) Little Phoenix IHS understanding/support; 7.) Not invited to participate in decision making by the Phoenix Area; 8.) No site management support -- EHR, RPMS patches, etc.
2	Increase Administrative Staff	
3	Add Dental Department	
4	Add Nursing Support	
5	Add Business Office/CHS Office Staff and Space	
6	Add Transportation	
7	Increase Public Health Nursing Staff/Space	
8	Increase Alcohol & Substance Abuse Counselors	
9	Increase Mental Health Counselors	
10	Increase Health Information Management Staff
